

TRIM

LONG-LASTING REDWOOD. THE FINISHING TOUCH.

CLEAR REDWOOD FINGERJOINT PRIMED TRIM may be used in any and all trim applications, whether exterior or interior, where the natural durability of Redwood is desired.

- Use for exterior or interior Trim
- Available dimensions include 1"x4" through 1"x12" and 2"x4" through 2"x12" in 16' and 20' lengths
- Boards are surfaced one side, two edges (S1S2E)
- Factory pre-primed
- Accepts and holds paints and other finishes extremely well
- Redwood is naturally resistant to decay and termites
- Redwood performs well under fire exposure with a Class B flame spread rating
- Humboldt Sawmill offers a consistent, high-quality supply source from 440,000 acres of Forest Stewardship Council® (FSC® C013133) certified timberlands in Northern California
